

Chicago Public Schools Student Science Fair Mentor Program

The Student Science Fair, a 501C(3) not-for-profit corporation is looking for individuals who would be willing to work closely with high school students in a mentoring relationship. The student would work with the mentor to develop an individual research project. The student would actually work at the site of the mentor – at their laboratory, museum, or other research facility. The student would develop, with the advice of the mentor, a research plan and carry out their project in accordance with the Student Science Fair Participant Handbook. The handbook is available from the Chicago Public Schools Student Science Fair Web Page at www.chicagostudentsciencefair.org.

Those individuals who would be willing to participate in such a relationship are asked to fill out the information below. You will be contacted personally by one of the Science Fair Staff to make final arrangements. Providing this information does not at this time constitute a commitment. There will be a formal memorandum of understanding to follow when a student is identified who would like to work with you.

Name _____

Title _____

Organization _____

Address _____ City _____ State _____ Zip _____

Phone () _____ FAX () _____ E-mail address _____

Check all categories of interest:

Briefly describe any ideas that you have for working with individual high school students:

- Aero-Space Sciences
- Behavioral Sciences
- Biochemistry
- Botany
- Chemistry
- Computer Science
- Earth Sciences
- Electronics
- Engineering Sciences
- Environmental Sciences
- Health Sciences
- Materials Sciences
- Mathematics
- Microbiology
- Physics
- Zoology
